

I am a resident of Indiana and I am on the Do Not Call List. Before I signed up for this list, I recieved atleast 4 phone calls a day from different businesses trying to get me to do this or sign up for this. Now that I am on the List, I have not recieved one phone call like this at all and I want it to stay this way! I am proud of what Indiana has done with keeping unwanted phone calls to reach my house. There is a reason that I stopped doing business with a company and one of those reasons was because I was unhappy with that company and I certainly do not want to here from that company a year after I stopped doing business with them. The reason they are using to challenge are law is bogus. They are just using this as an excuse to gain access to call me because they are desperate and can't find any other way to gain access to me. I also work for a business that is affected by the Call List, but I think it is the consumers choice and not businesses not matter what they try and come up with. The point of the matter is that I don't want anyone calling me and that is that. Thank you.
